DECLARED 25 January 2008

UNITED STATES PATENT AND TRADEMARK OFFICE  
BOARD OF PATENT APPEALS AND INTERFERENCES

Patent Interference No. 105,613 (RT)  
(From Technology Center 1600)

AMGEN, INC.  
(09/895,943),  
Junior party,

v.

HUMAN GENOME SCIENCES, INC.  
(6,844,170),  
Senior party.

DECLARATION - BD.R. 203(b)<sup>1</sup>

By TORCZON, *Administrative Patent Judge*.

A. DECLARATION OF INTERFERENCE

An interference is declared pursuant to 35 U.S.C. 135(a). Details of the application, patent, count, and claims designated as corresponding to the count appear under headings E and F.

---

<sup>1</sup> "Bd.R. x" may be used as shorthand for "37 C.F.R. § 41.x". 69 Fed. Reg. 49960, 49961 (12 Aug. 2004).

**B. DESIGNATION TO MANAGE**

Administrative Patent Judge Richard Torczon has been designated to manage the interference. Bd. R. 104(a).

**C. STANDING ORDER**

A copy of the Standing Order (SO, Paper 2) accompanies this declaration. The Standing Order applies to this contested case.

**D. CONFERENCE CALL TO SET DATES**

A telephone conference call to set dates for action in this contested case is scheduled for **2 p.m.** (Eastern) on **2 April 2007**. (The Board will initiate the call.)

No later than **27 March 2008**, each party shall file and serve (SO ¶¶ 10.1 & 105) a list of the motions (Bd. R. 120; Bd. R. 204; SO ¶¶ 104.2.1, 120 & 204) the party intends to file.<sup>2</sup>

A sample schedule for taking action during the motion phase appears as Form 2 in the Standing Order. The parties are encouraged to discuss the schedule prior to the conference call and to agree on dates for taking action. A typical motion period lasts approximately eight (8) months. A party requesting more or less time should be prepared to justify the request.

---

<sup>2</sup> Amgen's theory in its Bd.R. 202 statement is that HGSI is not entitled to any constructive reduction to practice date for failure to comply with 35 U.S.C. 112(1). Consequently, Amgen will be expected to file a motion for judgment on that theory. Since the motion is likely to be a do-or-die gambit for Amgen, a party would need a very good story to get authorization for any other motion.
